2018-FEFO-01026	04/26/2018	Please note, the FOIA request included a request for the report and any associated attachments, appendices, emails, etc... According to the copy of the report sent as a result of FOIA request, there were ten (10) Exhibits referenced on page 13 of the report, yet none of the exhibits were included in the version of the report your office sent on November 8, 2017 (attached). "Thank you for your response to my FOIA request (FEMA FOIA 2017-FEFO-00734) regarding my DHS-OIG complaint (C1501675). In your email you requested any clarifying information that may narrow the scope of my request. To clarify my FOIA request, I am seeking the FEMA Internal Investigative Division's (FIID) report that they drafted in response to my DHS-OIG complaint. DHS-OIG received and reviewed my complaint and directed FEMA FIID to complete the initial investigation and to write their report, which was, as I understand it, provided to DHS-OIG in 2015 (I believe in early summer 2015). I am requesting a copy of the FEMA FIID report drafted in response to my complaint (C1501675) that was sent to DHS-OIG, to include the report and any attachments, appendices, addendums, etc. associated or provided with the report. If during your document search you find other documents outside of the actual report (and any attachments, appendices, addendums, etc.) that are associated with the report, I would request that those documents (documents, emails, etc.) be included as well."	Granted/Denied in Part

Hurricane Irma and Hurricane Maria and after action reports 43. Hurricane Irma and Hurricane Maria and VITEMA	Other Reasons - Request Withdrawn
2018-FEFO-00390	01/22/2018	records regarding the transition from the 1929 Vertical Datum with the 1973 Adjustment to the 1929 Vertical Datum with the 1987 Adjustment as it relates to Flood Elevations for the City of Bellaire, Harris County, Texas	Other Reasons - No Records

2019-FEFO-00105	11/08/2018	requesting the following: data on NFIP total coverage (dollar value) by year and municipality from 1990-2018 and data on NFIP total earned premium (dollar value) by year and municipality from 1990-2018. This data is aggregated here: <a href="https://www.fema.gov/statistics-calendar-year">https://www.fema.gov/statistics-calendar-year</a> , but you would like it to be disaggregated to the municipality level. If possible, the data to be further broken into zone and resident categories for each year with the total dollar value of coverage and the earned premium by zone-resident status-municipality. If this is not possible, then the data on dollar value of NFIP total coverage and earned premiums by municipality-year will suffice.	-
2018-FEFO-00983	07/25/2018	For all of these datasets my primary research is on the state of New Jersey, however if it is feasible it would be very helpful to have the datasets for the entirety of the United States. (1) Data on flood insurance claims made to the National Flood Insurance Program. I request the full history of available data for the state of New Jersey and the state of Florida. Specifically, I am looking for residential data relating to claims (number made and dollar value) to the National Flood Insurance Program by street address (parcel id or other identifier) for 1996-2017. If street address is not releasable, then a generic identifier that allows me to track a home across time is fine. Ideally I would still have some general information about where the house is located (perhaps at the zipcode or municipality level). (2) Historical data on flood incidents for the United States. Specifically, I am interested in flood history data for the United States from 1996 - 2017. I've used the flood hazard declaration data and the public assistance data, but I'm interested (if it is available) in maps of floods that have occurred in the United States. By floods I mean any flood event significant enough to require claims, flood hazard declarations, or FEMA public assistance. If maps are not available then I am interested in the most granular level of data you have for indications of flood. For example the hazard declaration data is at the county level. Do you have anything at the municipality level? (3) Data on policy enrollment in the National Flood Insurance Program at the observational level of street address or some other house identifier (for example parcel id). I am requesting the full history of data you have available for the state of New Jersey As for policy information, I would like to know whether or not a policy was held by a household in a year-month from 1996-2017. If the same privacy concerns exist as for the claims database and you cannot provide that at the street address level, then I would prefer if possible to have a generic identifier that allows me to track a home across time and if possible is consistent with the identifier used in 1. Again it would be ideal to have some general information about where the house is located (state, county, municipality, zip code etc.). It would also be ideal to have the level of the policy held i.e. how much insurance was purchased.	-
2018-FEFO-00645	04/05/2018	I request FEMA's National Flood Insurance Program (NFIP) data and Individual Assistance (IA) data for all available years (at minimum 1996-2016) at the COUNTY/FIPS level, by Month (or smallest time period available), for the entire U.S.: -Number of Claims Submitted by County and by Month (or smallest time period available) -Number Of Claims Closed With Payment by County and by Month (or smallest time period available) -Total Paid by County and by Month (or smallest time period available) -Any and all information on types and categories of Claims Submitted and Claims Closed by County and by Month The data is similar to FEMA's DataVizFloodsFV3.22.2017.xlsx, except that you request the data to be broken down at the FIPS/county level rather than the county level, and the monthly level rather than yearly (or smallest time period available), as well as information on Claims submitted. You also request for the FIMA/NFIP data: 1) Disaster Number (DR) for each observation, 2) Disaster code for the Incidence Type of each observation (i.e., flood, hurricane, fire) and for the IA data: 1) Include a unique county-level identifier (FIPS), 2) Disaster code for the Incidence Type of each observation (i.e., flood, hurricane, fire). 2018-FEFO-00565	03/13/2018	records related to the April 19, 2017 FEMA FIS and FIRM update for the West Point, Georgia area. Specifically: 1.) The name of the model actually used by AECOM to route the runoff and flood wave through Chattahoochee River reach at West Point, Ga. 2.) The input files for the model used in No 1 above. 3.) Record of what storm event was used for their model and how was the flood hydrograph for that storm developed? 4.) Provide a copy of the hourly or 6-hour hydrograph for the storm used in the model. Hydrograph must be at least 96 hours long. 5.) A copy of the LiDAR output used to assess the increase in size of the drainage basin by 332 sq. mi. and the LiDAR output used to establish the 2 foot contours for the area of the City of West Point. 6.) Copy of letter from (b)(6) to Mayor Steve Tramell, Mayor Pro Tem, City of West Point, dated October 16, 2016. 7.) Final HEC-RAS model developed by AECOM and used to determine floodplain elevation. 8.) Final model results used by GA EPD and FEMA to determine floodplain elevation for the City of West Point.	Other Reasons - Request Withdrawn
2018-FEFO-00571	03/13/2018	electronic file of Stafford Act funds distribution for disaster relief and response including the year, state,tribal government, incident type, declaration type, incident date, and funds distributed; Individual & Households Program and Public Assistance dollars.	Granted in Full
2018-FEFO-00577	03/14/2018	FEMA applications for disaster relief as the result of hurricanes Maria and Irma. The data elements we are interested in are: Event name (eg. Hurricane Maria or Irma). Date of submission. Zip code of affected property. Zip code of residence at time of submission	Granted/Denied in Part
2018-FEFO-00579	03/14/2018	Any and all talking points and similar memorandums, emails, and transcripts providing advice or direction on how to handle the media, media interviews, and statements for the 16 month, 5 day period from Tuesday, November 8, 2016 through Tuesday, March 13, 2018. More specifically you are seeking any documents, emails, or communications with the following phrases in the title or subject line: Talking Points STMT Statement Press Strategy (Date Range for Record Search: From 11/8/2016 To 3/13/2018)	Other Reasons - Request Withdrawn
2018-FEFO-00591	03/13/2018	county-level information on gubernatorial requests for Presidential declarations of natural disasters, between 1985 and 2016. I would need information on the declarations AND on the turndowns. Ideally, a panel with the following variables would be much appreciated: - state and county fip codes - date of disaster (month - year) - disaster type (floods, hurricane, snowstorm, etc.) - entity who seeks federal assistance (county, state, town, etc) - a dummy variable for presidential declaration (1/0) - a dummy variable for presidential turndown (1/0) - amount of federal relief if presidential declaration==1 My variables of interest are primarily: presidential turndowns, county fip codes, and the entity seeking federal assistance.	Granted in Full
